

HUDSON RIVER VALLEY CALENDAR – 2009

The Hudson River Valley Calendar's 21st Edition offers a scenic tour of one of America's most beautiful regions. The photographs highlight the dramatic seasonal color changes within this National Heritage Area, renowned for its captivating landscapes. This year's theme is *History's Valley*, particularly appropriate to 2009's Hudson-Fulton-Champlain Quadricentennial. Publicly accessible sites, like The Verplanck Homestead at Mt. Gulian, Washington Irving's Sunnyside, The Morse Mansion at Locust Grove, and Frederic Church's Olana highlight the region's historic legacy. Ted Spiegel's photographs have illustrated many National Geographic articles and a shelf full of books. You can see the images at tedspiegel.com or request a sample copy. Large writing blocks are provided for planning days and months. All of this makes it a unique decorative asset for the home, with proven potential as a promotional, holiday gift for institutions and businesses. For your customers or employees, it offers a year long sharing of the Hudson Valley's quality of life.
